

Fossil Creek Wild & Scenic River

We are actively listening
and we value your time and input...

Values Workshop and
comments on draft
resource assessment

We added Recreation, Fish and
Wildlife to the Outstandingly
Remarkable Values

Design workshop

We took the ideas of a shuttle
system and day use to the
Interdisciplinary Team for
consideration and included
them in our Proposed Action

Meetings with local government
officials, Payson Chamber of
Commerce, others

We recognize local
community needs for social
and economic vitality and
followed through on
suggested contacts and ideas

“Stakeholder
Group”^[1]
Meeting

We included the idea of a
Scenario Spectrum in our
open house format

^[1] A “Stakeholder Group” was formed in 2007. It is composed of a diverse array of organizations, agencies, educational institutions, and private citizens that have been working together to maintain and improve ecological resources, management, and scientific research at Fossil Creek. However, everyone with an interest in the future of Fossil Creek is a stakeholder. The engagement process aims to include all stakeholders.
